### 1 Types of installation

Barazza products are available with different types of edging and installations. Please see the flap on the right for the key.

### 2 Technical features

All technical features are specified in the text for each product. Standard equipment is indicated at the bottom of each page.

### 3 Product code

Products can be identified immediately using the product code. The product code is required when formulating an order.

### 4 Accessories

Every Barazza product has a specific range of dedicated accessories such as stainless steel bowl covers, polished steel baskets, chopping boards and colanders, designed to help make the kitchen even more functional. For more information, please see the Accessories section on page 170.

### 5 Product benefits

The icons indicate the main features specific to each product. Please see the flap on the right for the key.

### 6 Base

"Base" is understood to mean the smallest standard unit in which the product can be installed.

### 7 Technical drawing

Technical drawings include the size and technical features of the product. The size of the cut out for built-in installations is specified in the text. For flush and undermounted installations, please see the technical data sheets available online at [www.barazzasrl.it](http://www.barazzasrl.it).

### 8 Tap hole

Barazza's sinks come with a tap hole measuring 3.5 cm, meaning you do not need to make a hole in the kitchen worktop. Many models can be customised on request at the order stage to include two, three or five holes, required if you decide to add a remote control or handy soap/detergent dispenser. Optional holes are marked on the technical drawings with a dotted line.

# GENERAL CONTENTS

---

Barazza offers a full range of coordinated ovens, hobs, cooker hoods, sinks, accessorised channels, taps and accessories, to satisfy demanding customers who want to express their own creativity in the kitchen.

# BARAZZA PRODUCT CATEGORIES

---

Quality must always also satisfy requirements regarding space and opportunities.

Barazza offers solutions conceived to offer the widest range of possible choices in terms of taste and requirements, from the collections made up of coordinated elements, to the Fusion range with its made to measure and built-in hobs, to the Outdoor collection, designed to furnish even your outdoor spaces, and through to Made to Measure, which gives carte blanche to the client to draw up their own tailor-made design.

# 1

## COLLECTIONS

The opportunity to create your own kitchen with coordinated elements.

# 2

## FUSION

The dream of a single worktop, tailor-made and built-in.

3

MADE TO MEASURE

The desire to respond to all types of requirement.

4

OUTDOOR

The freedom to live in your own time, in new spaces.

## COLLECTIONS

---

Barazza's Collections present elegant systems of ovens, hobs, sinks, cooker hoods, accessorised channels, taps and accessories designed and created following the precepts of a strong, characterful aesthetic.

They take us from strictly coordinated details to different types of edge, to the type of steel finish, and on to the knobs and dedicated accessories that add prestige and personality so that each kitchen reflects those who live in it.

# MOOD FUSION Features

## Finish

- AISI 304 solid 4 mm stainless steel with satin finish. Available in the Vintage or Mat finish on request.

## Dimension limits

- Max. length: 236 cm
- Depth: 51 and 45 cm
- Worktop thickness: 0.4 cm
- Overall gas hob height: 4 cm
- Overall induction hob height: 6 cm
- Overall bowl height: 20 cm
- Overall worktop height: 2 cm
- External edge radius: 0.6 cm

- Minimum distance between a hob, a bowl or draining board: 3.4 cm
- Minimum distance between two bowls: 6.4 cm
- Fixed distance between the centre of the tap hole and the bowl back edge: 4.5 cm
- Two back holes for tap and standard pop-up plug

## Depth 51 cm

- Minimum distance between front edge and induction hob: 5.5 cm
- Minimum distance between side edge and induction hob: 3.5 cm
- Minimum distance between side edge and bowl: 3.4 cm
- Fixed distance between front edge and bowl: 3.4 cm
- Fixed distance between back edge and bowl: 8 cm
- Fixed distance between two tap holes: 12 cm
- Fixed length of supporting surface: 39.6 cm
- Two back holes for standard tap and pop-up plug

## Dimensions for cut out

- Depth: 49 cm
- Length: -2 cm with respect to the worktop size

For Mood Fusion stainless steel worktops longer than 120 cm and 180 cm, Barazza recommends to consider to make two or three cut outs, respectively, at a distance of 10 cm.

## Depth 45 cm

- Minimum distance between side edge and bowl: 3.4 cm
- Fixed distance between front edge and bowl: 3.4 cm
- Fixed distance between back edge and bowl: 8 cm
- Fixed distance between two tap holes: 12 cm
- Fixed length of supporting surface: 39.6 cm
- Two back holes for standard tap and pop-up plug

## Dimensions for cut out

- Depth: 43 cm
- Length: -2 cm with respect to the worktop size

For Mood Fusion stainless steel worktops longer than 120 cm and 180 cm, Barazza recommends to consider to make two or three cut outs, respectively, at a distance of 10 cm.

At the design stage, check the space taken up by the elements (hob, bowl and tap) in the base units below.

# B\_FREE FUSION

## Features

### Finish

- AISI 304 stainless steel with satin finish. Available in Vintage finish on request.

### Dimension limits

- Max. length: 236 cm
- Depth: 51 and 42 cm
- Worktop thickness: 0.6 cm
- Maximum hob depth: 6.4 cm

### Depth 51 cm

- Minimum distance between side edge and 36/60/70/90 cm hobs: 1.5 cm
- Minimum distance between side edge and 100 cm hob: 6.2 cm
- Minimum distance between side edge and bowl: 5.5 cm or 11 cm where there is a tap hole
- Fixed distance between front edge and hobs and bowls: 5.5 cm
- Fixed distance between the tap hole centre and bowl edge: 5 cm
- Fixed distance between the tap hole centre and back edge: 7 cm

- Minimum distance between a 36 hob and a 36/60/70/90 cm hob: 5.5 cm, or more than or equal to 21.5 cm
- Minimum distance between a 36 hob and a 100 cm hob: more than or equal to 21.5 cm
- Minimum distance between 60/70/90/100 cm hobs: more than or equal to 21.5 cm
- Minimum distance between a hob and a bowl: more than or equal to 15 cm
- Fixed distance between two bowls: 7 cm

### Dimensions for cut out

- Depth: 49.5 cm
- Length: -2 cm with respect to the worktop size

For B\_Free Fusion steel worktops longer than 120 cm and 180 cm, Barazza recommends to consider to make two or three cut outs, respectively, at a minimum distance of 3 cm.

# B\_FREE FUSION Features

## Depth 42 cm

- Minimum distance between side edge and 100 cm hob: 6.2 cm
- Minimum distance between side edge and 34x40 cm bowl turned through 90°: 6.2 cm or 11 cm where there is a tap hole
- Fixed distance between the tap hole centre and edge of 34x40 cm bowl turned through 90°: 5 cm
- Fixed distance between the tap hole centre and back edge: 7 cm

- Distance between a 100 cm hob and a 34x40 cm bowl turned through 90°: more than or equal to 15 cm
- Fixed distance between two 34x40 cm bowls turned through 90°: 7 cm

## Dimensions for cut out

- Depth: 40 cm
- Length: -2 cm with respect to the worktop size

For B\_Free Fusion steel worktops longer than 120 cm and 180 cm, Barazza recommends to consider to make two or three cut outs, respectively, at a minimum distance of 3 cm.

At the design stage for both depths, check the space taken up by the elements (hob, bowl and tap) in the base units below.

# MIZU KASAI WHERE WATER MEETS FIRE

---

Mizu and Kasai, “water and fire” in Japanese, are transformed by Italian creativity to become sinks and hobs, two core elements of a collection inspired by clean lines and the rigour of conventions.

The Mizu Kasai collection comes from a collaboration with architect Franco Driusso of the **DriussoAssociati | Architects** studio, winner of several international prizes including 22 **Good Design Awards**, and holder of an honourable mention in the Compasso d’Oro awards 2018.

# ICON GLASS

## SISTEMA **FEEL** *Good*

Feel Good is the innovative healthy system of cooking and conserving foods made up of a vacuum sealer drawer, blast chiller and combi-steam oven from the Ioon collection. The blast chiller allows both raw and cooked food to be chilled or frozen without altering their smell and sensory properties, while the vacuum sealer drawer allows you to conserve them for longer in the fridge or freezer, to then cook them or reheat them in the steam oven.

Zefiro

Zefiro is the first system in the world that can transform the built-in oven into an actual air sanitizer; a unique and exclusive bonus that enhances the already rich range of functions and equipment in Barazza's new range of ovens.

## HOW THE ZEFIRO SYSTEM WORKS

- 1) Using the appliance's tangential cooling fan, air to be purified is blown through a series of holes expressly located on the rear side of the oven.
- 2) Once inside, the air is funnelled over the upper side and guided through a double beam of germicidal ultraviolet light, emitted by two LED UV-C plates; the germicidal ultraviolet light changes the DNA or RNA of the micro-organisms it irradiates, preventing them from reproducing or being harmful to humans.
- 3) Purified of harmful substances and bad smells, the air is reintroduced into the room through the slot on the front of the oven, between the door and the control panel.

The system can be activated simply and intuitively on the various types of oven that include it, but only when the appliance is not engaged in a cooking process. It can operate for periods of time from 2 to 8 hours, at gaps of one hour, depending upon the size of the room to be purified.

# ICON GLASS COMBI-MICROWAVE OVEN built-in

Icon Glass built-in compact combi-microwave oven  
Touch Control + knobs

## OUTDOOR FREESTANDING

The Outdoor collection offers a full range of freestanding Thalass hobs, easy to transport and position, that specialise in different cooking and food preparation techniques. The particular chemical composition of the AISI 316 stainless steel of the hobs makes them even more resistant to corrosion caused by salt, rendering them ideal to use in any scenario. The practical multi-purpose Cover completes the set.

**Spare cartridge (including timer for filter code 1FGL)** code **1CGL** € **184.00**

### 3-way Glass mixer tap

Glass is completely made of AISI 316 stainless steel and fulfills two functions in a single item: the delivery of both purified water and normal running water. It lets you use filtered and purified water only when necessary. The system is economical, ecological and safe, designed to guarantee water that is always completely pure, eliminating limescale and chlorine residues, the cause of bad smells. It respects the environment because it substantially reduces the use of plastic, does not generate wasted water, and allows you to make savings in complete safety.

It is practical, compact and aesthetically integrated into the kitchen. No special installation is required, only the conventional installation process. All the technology is enclosed in a cartridge which can be replaced quickly and simply without recourse to equipment or the help of a specialist engineer. Each cartridge delivers 3000 litres of very pure water. The timer provided with each cartridge warns you when the cartridge should be replaced.

The flows are separate so that filtered water and purified water are kept apart throughout their trajectories.

# TECHNICAL ASSISTANCE AND AFTER-SALES SERVICES

## Sales points

To get the up-to-date list of authorised distributors, go to the website [www.barazzasrl.it](http://www.barazzasrl.it)

## Information service

Barazza provides an Information service to quickly respond to any requirements relating to:

- information about products and accessories
- problem solving
- instruction booklets
- information about methods of installation

## To contact the information service directly:

email: [customer@barazzasrl.it](mailto:customer@barazzasrl.it)

## Reserved area

By entering your access details you can enter Barazza's reserved area where you can consult all the on-line documentation, the Mood, Lab and B\_Free Fusion configurators and the interactive Made to Measure price list.

## Shop on-line

Go to the Barazza on-line shop [www.barazza.shop](http://www.barazza.shop) where you can purchase special cleaning products and a huge range of accessories for sinks, bowls, hobs, ovens and hoods along with a full range of electric socket holders and accessories for accessorised channels.

## General notes

Barazza reserves the right to make any changes, at any time and without prior notice, to improve its products. The colours shown are by way of example only.

Reproduction of this catalogue for commercial purposes, without specific authorisation from Barazza, is strictly forbidden.

## Certifications

Barazza is certified according to the standards UNI EN ISO 9001 and 14001. In addition to the UNI EN ISO 9001 certification, which guarantees quality control and optimisation of production processes, and has customer satisfaction as its primary objective, Barazza also complies with UNI EN ISO 14001. The aim is to maintain and improve its environmental system. This includes managing the impact of its activities in an effective and eco-sustainable manner, optimising natural resources, as well as energy resources, and implementing regular control systems for waste disposal and preventing environmental pollution.
